

## Quattro Design Architects

Exit off the M4 at junction 19 onto the M32 heading south into Bristol City Centre.

Travel for approximately 5 miles on the M32.

At the end of the M32 it becomes Newfoundland Street.

At the second set of traffic lights get in the right hand lane following signs for the city centre.

At the roundabout go straight over (2nd exit) and onto Marlborough Street.

Go past the bus station on your left and continue on past the main hospital buildings and the new childrens hospital buildings.

Continue straight on, up a slight hill, through a fork junction and a set of lights. The road turns into Park Row.

You will soon pass a Texaco Garage on your left.

Soon after on your left you will see a bright yellow painted pub called the White Hart, (a scream theme pub) and you should immediately take the first left down the road at the side of the pub, called Park Street Ave.

At the bottom of this short street, you should take a left onto Park Street.

Great George Street where Quattro Design is situated is the second road on your right.

There is metered parking on this road and very convenient to us, and there are usually spaces.
