

Carbon Reduction Plan

Supplier name: Quattro Design Architects Ltd

Publication date: 16 March 2022

Commitment to achieving Net Zero

Quattro Design Architects Ltd has publicly committed to achieving Net Zero emissions by 2030.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2019	
Additional Details relating to the Baseline Emissions calculations.	
Quattro Design Architects has recorded its emissions for employee mileage, plus monitored paper usage and recycling, since 2014 when it achieved ISO14001 certification. Since 2019 this has been extended to include the three scopes of GHG emissions. Carbon emissions have been calculated from the UK Government GHG Conversion Factors for Company Reporting for the respective year. Quattro has set a target to reach net zero by 2030.	
Baseline year emissions: 2019	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	3.4
Company Cars - Fuel Combustion:	3.4
Scope 2	20.4
Purchased Electricity for Building (100% renewable):	18.9
Purchased Electricity for EVs:	1.5

Scope 3	120.5
Employee Commuting:	67.7
Water Supply:	0.1
Water Treatment:	0.2
Purchased Goods:	22.1
Waste Disposal:	24.3
Business Travel:	6.1
Total Emissions	144.3

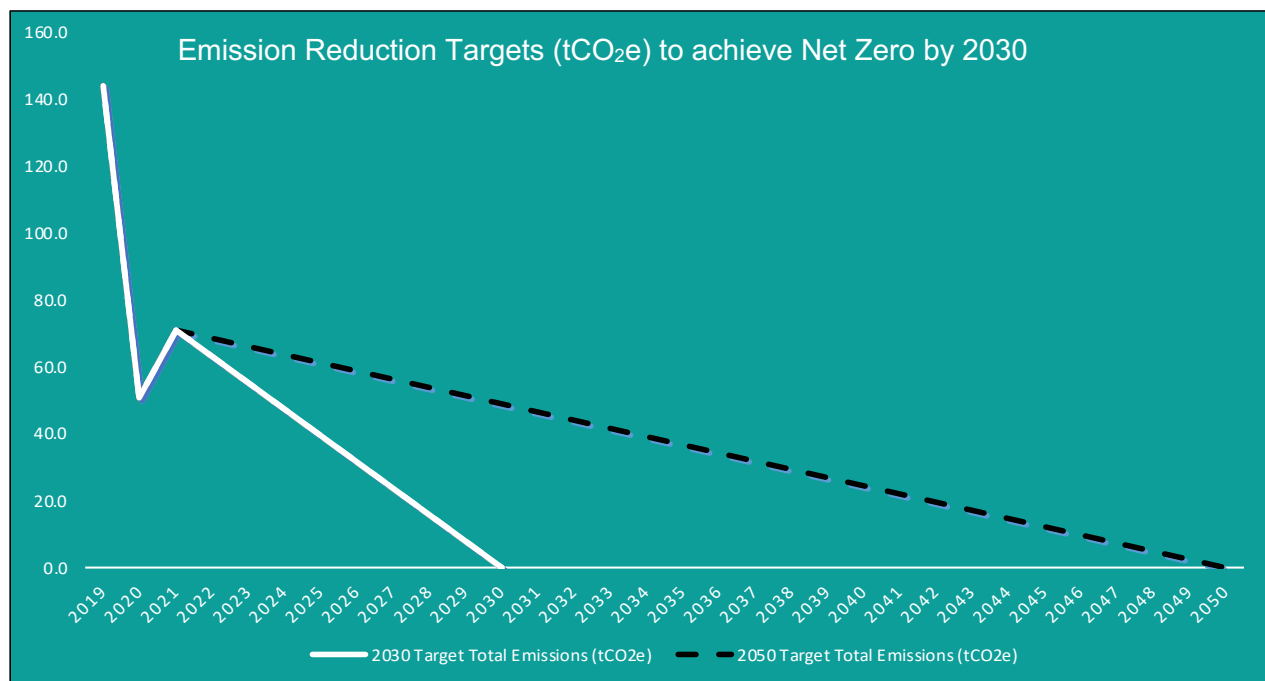

Current Emissions Reporting

Reporting Year: 2021	
EMISSIONS	TOTAL (t CO2e)
Scope 1	0.9
Company Cars - Fuel Combustion:	0.9
Scope 2	10.2
Purchased Electricity for Building (100% renewable):	10.0
Purchased Electricity for EVs:	0.2
Scope 3	59.9
Employee Commuting:	30.7
Water Supply:	0.1

Water Treatment:	0.1
Purchased Goods:	13.9
Waste Disposal:	10.9
Business Travel:	4.2
Total Emissions	71.0

Emissions reduction targets

We are committed to becoming net zero by 2030 or sooner.

*The impact of Covid-19 demonstrated in the 2020 dip in emissions.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 2019 baseline.

- Our environmental management system is UKAS certified to ISO14001 and is audited annually. It focuses on objectives and actions in areas that will have the most significant environmental impact both in the short and long term.
- Flexible/hybrid working policy.
- Office facility heated by electricity.
- Renewable energy sources for all our electricity requirements.

- Print management system to reduce paper and ink usage.
- Zero to Landfill and recycling for our waste streams.
- Cycle to Work scheme for all staff.

The carbon emission reductions achieved by these schemes is evident with a significant reduction (50%) in our CO2 emissions over 2-year period. Clearly the Covid-19 pandemic has had an impact but new working practices of hybrid working for staff and a greater number of virtual meetings have been adopted going forward.

In the future we hope to implement further measures such as:

- Build awareness amongst our workforce of the impact of their decisions on our journey to net zero.
- Continue the transition to electric vehicles for our company fleet.
- Zero waste strategy.
- Further quantification and understanding of value chain environmental impacts.
- Engaging our supply chain to minimise our Scope 3 carbon emissions.
- Invest in a certified UK carbon offset scheme for emissions we cannot eliminate.

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors.

Signed on behalf of the Supplier:

Robert Walder, Director
